Info

As a former director of an interior design bureau for 9 years, I have developed a strong skill set in project management, where I successfully led a team of 8 people to complete multiple projects on time and within budget. I was responsible for overseeing the entire project lifecycle, from client consultation to final delivery, and I had to ensure that all team members were working together effectively and efficiently.

This experience allowed me to develop strong communication, problem-solving, and time-management skills, which I believe would translate well to a career in web development. I am confident that I can use these skills to contribute to the success of any project or team that I am a part of, and I am excited to continue growing my skills in the IT industry.

Skills

Web Development:

HTML, CSS, JavaScript, TypeScript, Node.js

Mobile Development:

Dart, Flutter, React-Native, Expo

UI/UX:

Tailwind, Nativewind, SCSS

Database:

MongoDB, Expo-Sqlite, Firebase Real-Time DB

Frameworks:

Photoshop, Illustrator, InDesign, 3DsMax, AutoCad

Education

BA Interior Design

Istituto Marangoni London / Sep 2010 - Jun 2013

CS50x Computer Science

Harvard Online Education / Jul 2022 - Sep 2022

Online courses:

The Complete **Dart** Learning Guide [2022 Edition] / Oct 2022
Flutter 3 with **Flutter** Projects on **Dart** Programming Language / Oct 2022
Build Responsive Real-World Websites with **HTML** and **CSS** / Jan 2023
React - The Complete Guide (incl Hooks, React Router, Redux, **Next.js**, **GIT**) / Feb 2023

Frontend Developer at If And Only If Ltd.

Duration: Apr 2023 - Jun 2023
Location: London, UK

As a freelance Front End Developer contracted by If And Only If Ltd, I worked on the endource.com project, converting Figma templates into web pages using PHP/Twig. I handled various front-end tasks, including implementing Tailwind/CSS for styling and adding functionality with JavaScript, such as sorting and searching through lists, and making sure the website layout follows different screen sizes and resolutions. My goal throughout was to create a user-friendly experience following strict design guidelines.

Director / Interior Designer at Cubika Design Ltd.

Duration: Jul 2013 - Aug 2022
Location: London, UK

Created an interior design bureau with my business partner. Specialised in both residential and commercial spaces. Successfully completed multiple small and large (1000m.sq+) projects in UK, France and Russia.

Graphic Designer at Baltic Restaurants Ltd.

Duration: Aug 2009 - Sep 2010
Location: Kaliningrad, Russia

As a self-taught graphic designer helped develop multiple restaurant/bar menus, promotional material and company's visit cards. Largest contribution being development of branding material and packaging design for a large product line of frozen foods under the brand "Proba".

Endource.com / Content Aggregator website

A dynamic content aggregation platform specializing in curated fashion. The website integrates and synthesizes data from various influential fashion magazines, websites, and blogs using RESTful API calls. The platform uses Prismic CMS for content management, presenting a comprehensive fashion guides that showcase products endorsed by industry-leading editors and bloggers.

NOWS App / Flutter mobile application

NOWS app is essentially a social network of user created pins (or posts) consisting of geolocation metadata, title and description text and image or video data. Pins are displayed on an interactive map within a certain radius of each user.

TK Portfolio / Static website

This static website uses basic web-development tools and a custom node.js page generator to produce a photography portfolio with gallery view for each portfolio entry. Website is fully responsive to mobile/desktop. Mobile pinch/swipe actions are implemented.

MK Portfolio / Next.js website

I have experimented with an isometric general layout for my portfolio website, utilizing a component based development approach, CSS and custom modules, Next.js SSR, static page generation and multiple React 'hook' features.
